DETAILED ACTION

1. The terminal disclaimer filed on July 21, 2005 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US 6,655,756 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

2. Claims 1-20 are allowed.

3. The following is an examiner's statement of reasons for allowance: regarding claims 1 and 14, the prior art of record fails to anticipate or render obvious a force generating apparatus and method for modifying an electrical force signal of the force generating apparatus, wherein the signal is modified to limit the rate at which fluid pressure in the apply chamber is reduced during a fast release mode to a predetermined rate low enough to preclude a change in modulus of the fluid during fast mode release; with regards to claim 5, the prior art of record fails to anticipate or render obvious a force generating apparatus, wherein an electrical signal is modified during fast mode release, and wherein a solenoid is located between an apply chamber of the force generating apparatus and a force applying element. The terminal disclaimer filed July 21, 2005 overcomes the double patenting rejection of claims 6-13 and 15-17.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
